Magical Merley Memories

Reception

The children went on a hunt to find their favourite tree to give it a hug!
We looked closely at our tree and will revisit it again to see if there are any changes.

Year 1

Nikki from the BCP road safety team came to visit and talk to us about how to be safe when crossing the road. We really enjoyed using the crossings and the uniforms in the hall. We know that we need to Stop! Look! Listen! Think! When we want to cross the road.
Using what we know about how to be safe by the road, we went for a walk around Merley! We practiced crossing the street safely (using the zebra crossings) and spotted helpful places like shops, parks, the church, and the bus stop. We were also science detectives, using our eyes, ears, and noses to discover things all around us!

Year 2

This half term, Year 2 have been learning a song all about kindness, friendship and choosing our words carefully. We worked hard to learn the lyrics and came together each day to practise. Once we were ready, we were very excited to perform for Reception! We remembered to stand tall in penguin and sing confidently so everyone could hear us. We had lots of fun practising together and were very proud to share our song and the important message behind it.

Year 3

Year Three shared their Super Stone Age posters with the Year One children which was made up of their double page summary from History lessons. These pages were filled with facts and information about the Stone Age period.

Each class has made a book which is displayed in our classrooms.

Year 4

Year 4 enjoyed a visit from Nikki and the Road Safety team at BCP who gave us a short lesson about how to act safely around roads. We learnt some important information about how to act safely around roads and gave ourselves reminders that we should ‘Stop. Look. Listen. Think.’ before crossing the road.
